Sam H. Dixon of the Southern Mercury, Dallas, is making a capital paper these days. The brain and push of the Mercury must bring a sure reward.

A RAILROAD commission law enacted in Texas will deprive the railroad lobbyist of his job, and there will be no more talk of one man receiving \$18,000 to dispense among the lawmakers and newspapers of the state.

IF ALL signs do not fall, the next state administration will shake up the dry bones in a manner that will startle the natives. The year 1891 promises some ilvely reading to newspaper patrons-Now is the time to subscribe.

WHEN the railroads of Texas are no longer compelled to maintain a lobby at Austin perhaps they can earn a dividend for their stockholders. A little more business and a little less politics and railroad wrecking in Texas railroad management might prevent receiverships.

IF YOU cannot speak hopefully of Fort Worth, do not speak at all. It will not hurt you or injure your interests if others make of Fort Worth a great city, and the least help you can render is to say nothing while the other fellows do the work.

the Weekly GAZETTE is evidence that the GEORGE TICKNOR in his defense of Danlel Webster against the charge of drunkenness, ignored the old saw, when the wine is in the wit is out. He says of the illustrious man, "when he had taken too much wine he was not intoxicated." How he proves the "too much" is the

> WHY dld the receivers of the International withdraw their exceptions to Master Campbell's report? The people of Texas have an interest in this matter. Was Master Campbell's report unanswerable? Would not the exceptions stand the test of legal inquiry?

THE knowledge of the fact that a man WHAT man in Texas received \$18,000 sawing in the woods found a bag of gold dust valued at \$1000 inside a tree need give no slarm. The forests of the west are not likely to be vigorously attacked so long as men seek towns and expect to win a living without much face sweating.

To exempt from taxation a manufacthrough lack of botel accommodations. turing institution that is called into being by a promise of the exemption does not add a feather's weight to the burdens of any taxpayer, but promises relief when to be largely replenished from the such value created by exemption becomes classics if there are many school princiassessable at the expiration of the ex-

IF ANY Fort Worth man cannot speak 000 at playing "The Senator." This well of the city he should keep his mouth may be true, but who can estimate the shut. One Fort Worth man speaking in possibilities to a real senator of the disparagement of the city can do more harm than 100 men in any rival city. It helps every man for the city to grow. Young German noblemen seem to be and those who are expending time, engoing at a rapid gait. Recently three of ergy and money in building up the city this class in Berlin have committed suishould not be handleapped by home pescide because of losses on the race course

ACTOR JOHN LAWRENCE SULLINAN PET-United States minister to Germany. formed in his usual role in front of the reached New York on Tuesday last. He Hoffman house a few days since. As hastened to say on landing that his visit puglist and staggerer J. L. S. has few THE plan of exemption proposed by the hand to vote the Republican ticket, and the American hog continues to squeal tion of taxable values and the protection outside German ports. of Texas against foreign manufacturers

> THE editor of the Mail and Express advises Republican members of the house, now they have secured a quorum, to keep their number unbroken, through fear of "Democratic mulcishness." The late kicking episode doubtless suggested the epithet. The Democratic mules need not be sensitive, for aside from a mule's utility he has a strain of good blood. while the braving variety is unmixed.

FORT WORTH is a town of unlimited possibilities and half-way achievements. If this city could ever be brought to THE chemist who has succeeded in realize what is possible to it, there would be a growth here such as the Southwest manufacturing musk hardly merits the never saw. Too many people in Fort Worth lack the courage of their convictions: they stand amazed at what is nocomplished, and let slip golden opportunities to achieve a thousand-fold more. Fort Worth is like Blind Tom, and stops too often to applaud itself.

As THE verdict of a Smith county court now stands, the railroads of Texas occupy the attitude of bribing the press of the state. With such uncontested verdicts as this on the records of Texas law courts, is it any wonder that the people are forced to believe the railroads have interests inimical to the general welfare? That report of Master Campbell, confirmed by Judge McCord, was unfortunate for the railroads of the state as well as for the press of Texas.

MRS. THOMAS A. HENDRICKS is said still to retain her intense dislike of Mr. Cleveland, and is reported as saying to Governor Hill that she would never forgive him if he should let Cleveland be the next presidential nominee. Mr. Cleveland, it will be recollected, defeated her husband in the convention and did not, by the advice of friends, attend his funeral. The woman manifests itself in her work at home and abroad in efforts to defeat his nomination in 1892.

A WORK HALF PERFORMED. Fort Worth has the strength of a gian' in its unequaled railroad facilities, but uses that strength as a child. This city is especially fitted to bandle wholesale, manufacturing and hotel business; but other cities sell goods in our territory, other towns catch the hotel business, and not half has been done in securing factories as might have been done. Unless Fort Worth goes forward it will retrogade, and the need is for more wholeWill not the leaders in Fort Worth open their eyes to the truth of the situation? We do much, but not one-half of what we might do.

EDUCATIONAL MATTERS.

State Superintendent Cooper's school report just issued, reviewing the educa- men all the afternoon going in and out tional work of the past two years, discusses a variety of topics any one of which is by itself worthy of editorial notice and comment. This is especially true of the method of granting certifi- and his receipts had gone up to \$200 a cates to applicants who think-often erroneously-that they have in them the stuff teachers are made of. There is awake to protect her children and chicertainly an urgent demand for improvement in this branch of the service. Other important topics discussed are, the organization of school districts, local taxation for school purposes-a very important matter, if the coming race is to be anywise improved intellectually or other, over its subtreasury, government loan parentage of to-day.

There is also a very timely chapter on 'a more effective supervision of country schools," Under the existing tax haphazard and inadequate fashion of appointing school teachers without a rigid scrutiny as to qualifications, the need all day on Sunday and visited grovels, for county supervision is absolutely im- did not pay their bills, and their perative. True enough, the county judge is ex-officio county superintendent of schools with authority to maintain a general supervision over them, and see that they fulfill the requirements of the law. But how often is it that, a county judge, elected to that office without any sort of reference to his knowledge of educational matters, is really qualified to exercise that intelligent supervision that none but a trained educator dare attempt? In not one case in fifty or a hundred perhaps is the county judge a -rained educator, and master of the details of school work. Many of them doubtless, where there is no county superintendent, render valuable aid, as far as their other duties will permit, to the schools in their respective counties; but if ever so well qualified, they have not the time to visit the schools within their jurisdiction as should be done frequently, and make such alterations and modifications, such changes and reforms

as are woefully needed in many of them. of say, 2000 school population, a superintendent whose business it shall be to devote his entire time to the improvement of county schools by Weeding out worthless teachers-of which it is are the great minds, who obey law and judged from Mr. Cooper's report there is an abundance-and by reforming old and obsolete methods of instruction, or wiping them out altogether.

It is very clear that until two things are gone, the rural schools of Texas are bound to be largely inefficient, worthless and wasteful. These are first, the emloyment of intelligent supervision, and seconly, a change in the manner of examining and accrediting school teachers. The present method of examining applicants is so loose and irregular that there can be said to be no standard whatever, mixed drinks. Is this not true? Look and all sorts of persons with the slightest smattering of the three "R's" find it that he has done since his appointment not difficult frequently to break into the prosp r? It needs schools, churches, has. He has taken good care to be on school room, where they are as little accomplish any earthly good, as they are to conceive divine comedies, or paint transfigurations. The money paid such teachers had better be exploded in fire crackers, and the pupils sent into the cotton fields, instead of being herded in worse than idleness, by jim crow teachers, that are no teachers at all, anymore than they are sculptors and painters, Raphaels and Correggios.

Other topics of the report touching finances, taxation and kindred matters, may call for future comment.

## SABBATH OBSERVANCE.

An Argument in Favor of Sobrlety as Against Rioting and Drinking-Dens of Vice in Fort Worth.

Editor Gazette.

The liquor dealers' society, which has been formed to scare our city fathers and moral people into rescinding their action in closing saloons on Sunday and letting rum and riot flow on the Sabbath and culminate in murders on Monday, which has been the history of the past two years, according to the evidence of our county attorneys, judges and courts, will find Fort Worth is alive to the interests of 10,000 children of our fair city, hundreds of poor starving widows and weak women, as well as of legislating in favor of two-thirds of our best citizens, instead of in the interest of the sporting and whisky element of a city, which class only tend to heap crime on a community; and who care nothing only for money at the door of low theaters, or for cash to blow into the liquor till or over gaming tables on the holy Sabbath day, even if it is wrong from the hearts of orphans and widows. Let us take a fair, honest look at the question from a business as well as a moral standpoint. What is the purpose of law if not to legislate in favor of good for the majority? What is the condition of law in Fort Worth? Laws stand enacted for a decent Sabbath, just a quiet Sabbath (in order to shut up Sabbath (in order all gambling deus), but laws are hoodwinked and run over until every saloon. gambling den, dive and theater for low vomen are open on the Sabbath, and fights, quarrels, thefts and even murder run freely all day and all night. All this is done in open defiance of law and of a great city police force. Such has been the slavery the people underwent because the best element were thoughtless and let it alone, instead of reforming such iniquity. Who are the great nations to-day? Law-abiding nations. Trampling of just laws under foot is orime enough, for it throws judges, officers and courts into faise, compromising positions, not tenatable with true manbood, to say nothing of the evil done by non-law-abiding citizens. Look at the present condition of Fort Worth on Sunday. Every saloon, dive, gambling den and low theater are all

open and blazing forth in defiance

sale houses, more manufacturing institu- of law; not on back and railroad tions and more hotel accommodations. streets and alleys, where such might be expected, but on the principal streets of the city from the Union depot to the square. Crowds of men and boys and women running in and out of back and side doors with pails of beer, fights and rows going on, so that respectable women avoid Main street from Ninth street to the depot. The Mission Sunday school on Fourteenth street have seen crowds of of the saloon across the street from the Bethel, as an example of law breaking and the power of drink. One saloon man sent word he wished more schools would open as it helped to draw a crowd. day, and thus is law in our city made null and void through the fear of man. No wonder that Fort Worth is at last zens. Look at the appearance of Hell's and abroad it is thought that the rowdy western element of Fort Worth is so great that respectable society can not handle it, and people do not care to risk families with such a state of affairs, and vet the Acre still stands to-day notwithstanding these facts. Over 10,000 citi- bad sold the lot in question for zens lately, through votes of the churches, and over 1200 business men, including every firm on Main and Houston streets with few exceptions, signed the petition to the council to move these places off of public streets, and license no variety theaters at all. Is that a voice of the people or not? Business men said Prospects Heights that men who owed them bills, and drank families were often kept from actually starving by the merebants. They all wanted a change, and thus give these weak poor fellows a chance to get home. and not be overcome by open saloons on Sunday, and all their wages wiggled from them for drink bills, and by gaming tables. Starving widows' prayers and erging children should be heeded in this day and generation at least. Nearly every late murder has been the result of a Sunday drunk. The awful work of lewd women among the street children has been commented on. A seven-yearold girl drunk str yed lately into the Bethel. Also another thirteen-year-old girl met her rum at one of these places lately, so the Bethel noticed. Boys and men in these dens gather to witness orgies of hulf-naked women, and little do people know what goes on in these places of liceused woe. Shall people say of the chamber or do nothing with these places; and again, shall law be violated by open bars on Sunday? Saloon men point to Kansas | day . as being injured by temperance. Yet it is so much so hurt that Kansas people will not repeal the law. lown to-day can boast of great prosperity and grand results. But the saloon men fail to state that Kansas for three years has had a complete crop failure. They never men-Hence the imperative need in counties | tion this fact, but in it to temperance. What foliy! Who are the great thinkers of the earth, statesmen, scientific men, inventors, scholars, great merchants? Are they drinking, lewd men? heads to-day govern the earth-they who drink deep of clear water and of sunshine, and who follow the laws of God-and uphold the laws of man. Who the upbuilders and men of Fort Worth to-day? The drunkards? In God's name, no! never! Who are then retarding the growth of Fort Worth by allowing an evil name abroad? Who keep up the brothels, dives, gambling dens, jails, hospitals and a vlums? Who takes the wages that should go for children's shoes and food; who sends

tories, or upbuild banks? No, they

GAS EXPLOSION.

Left Leaking in a Vault, a Match Ignites 1t, Causing a Serious Explosion. Special to the Gazette.

GALVESTON, TEX., Sept. 29 .- Yester-

day morning Frank Leestrange, the bookkeeper of the Island city manutacturing company, had occasion to go to his place of business to finish up some work. He unlocked the vauit as was his duty, and before opening the inner receptacle he lighted a match, and as he opened the door a terrine explosion occurred, driving him back against the wall. His bands and face were so seriously burned that a doctor had to come deposit and savings bank, and is vice- to his assistance. The injuries received will confine Leestrange to his room for several days. The supposition is gas was man's first visit to Fort Worth, and he left burning in the vault Saturday night and sometime during the night it went out, and thus filled the yault with comerland and shown over the city. He was | bustible material, and consequently an explosion Sunday morning took place,

War correspondent, and author of "Among Cape Kaffirs," "The Fossicker," &c.

# Sunday Gazette Weekly Gazette.

"THE LOST HEIRESS" is an exciting omestic Drama, interwoven with the events attending the prosecution of the memorable Zula War. There is no lack of local color, and the various scenes are depicted with startling realism. Through the details of savage warfare there ripples the music of a love story. Hairbreadth escapes, novel scenes and wonderful adventures secure the reader's unwavering interest,

Publication WILL COMMENCE September 28th.

Sunday Gazette Weekly Gazette.

THE STORY opens with the meeting of

a London merchant and his lawyer, who are scheming to obtain the fortune left by Mr. John Nicholson of Prospect Ranche, Texas, to the heiress whose disappearance gives the title to the story. The merchant and lawyer are working against each other. They engage a brokendown rancher to further their ends. He, however, gets an inkling of the plot and concocts a cold-blooded scheme of his own. The heiress is with her parents who have settled in South Africa. War breaks out and the chief characters in the story meet under unusual circumstances. The girl's life is in the utmost jeopardy. Her lover is taken captive by the great Zulu chief, but is liberated by a Zulu giri. reaching the British camp he is acrested on a false charge of murder.

The story is one of movement and incident, the scenes changing rapidly. Movements that were actually made by the troops, battles that were fought and historic incidents-such as the death of the prince imperial of France-are admirably described and are cleverly bound up with the development of the story.
